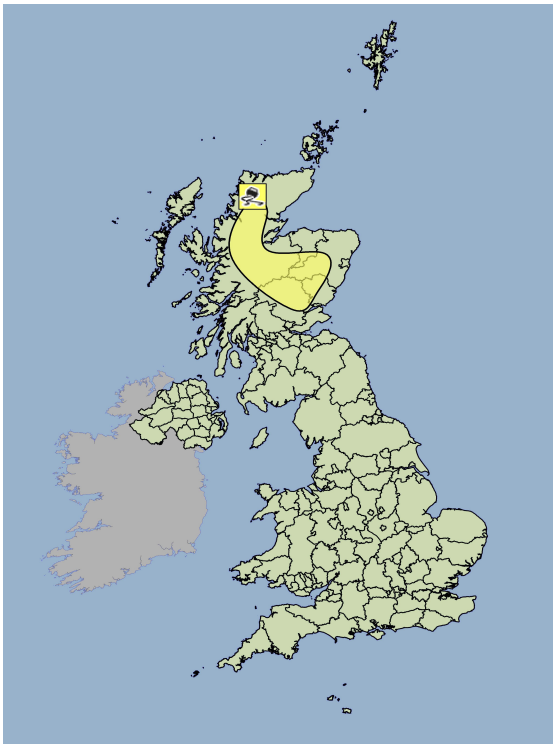
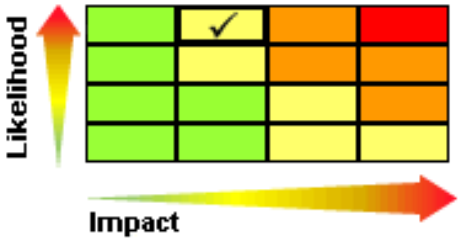
National Severe Weather Warning Service





Chief Forecasters Assessment
Following the clearance of overnight rain, clearing skies have allowed road surface temperatures to fall below freezing. This will allow ice to form on untreated surfaces for a time, before temperatures rise later this morning.

The Met Office have issued a **Yellow Warning** of **Ice**

Valid from **08:15 on Sat, 08th Feb 2014** until **10:30 on Sat, 08th Feb 2014**

Icy stretches are expected to form over the next few hours on untreated surfaces still wet from last night's rain. The public should be aware of the potential for locally difficult driving conditions.
